NAIC SIGNS MOU WITH THAILAND'S OFFICE OF INSURANCE COMMISSION *10th Agreement Signed on Regulatory Cooperation*

On behalf of the NAIC, President Sandy Praeger (KS) signed a Memorandum of Understanding (MOU) on regulatory cooperation with Secretary General Chantra Purnariksha from Thailand's Office of Insurance Commission (OIC). The agreement was signed at NAIC National Meeting in San Francisco and recognizes the importance of developing a formal dialogue to promote greater regulatory cooperation among the two organizations.

In September 2007, Thailand's Department of Insurance was transformed into the Office of Insurance Commission, which was created to be an autonomous regulatory authority, supervised under the Finance Ministry. The mission of the OIC is to develop a progressive and competitive insurance industry that provides insurance services to consumers, according to international standards. To contribute to the strength of the Thai economy and society, the OIC must also actively support the role of the insurance industry, while also effectively protecting consumers. Within the OIC, there are three deputy posts under the Secretary General, who are responsible for three lines of administration - monitoring supervision, promotion and administration.

With MOUs currently in place with the China Insurance Regulatory Commission (CIRC), the Office of the Commissioner of Insurance of Hong Kong, Korea's Financial Supervisory Commission and Financial Supervisory Service (FSC) (FSS), and Vietnam's Department of Insurance, this agreement with Thailand further solidifies the NAIC's commitment to maintaining and developing new relationships in Asia through greater dialogue.

The participation of two Thai insurance supervisors, hosted by California and Nebraska, in the NAIC's Spring International Intern Program is one of the many opportunities the NAIC and the OIC have to exchange information and learn more about each other's regulatory framework.

The NAIC now has entered into 10 MOUs on regulatory cooperation, including signed agreements with Iraq, Egypt, Russia, Brazil, China, Vietnam, Hong Kong, Korea, and the ASSAL (Association of Latin American Insurance Supervisors). The NAIC also agreed to a model MOU on information exchange between EU supervisors and United States lead supervisors of insurance group members with transatlantic operations.

NAIC CONTINUES TO EXPAND INTERNATIONAL INTERN PROGRAM

12 Interns from 5 Countries Complete the Program

The NAIC's Fall International Intern Program will begin the last week of October in Kansas City, Missouri. Twelve interns will participate in the fall International Intern Program, which will include regulators from Albania, Armenia, China, Egypt and Saudi Arabia. Regulators from the spring program also included two regulators from Saudi Arabia, 4 from Egypt, 2 from Thailand and 1 from Serbia. The NAIC developed the program in 2004 to advance working relationships with foreign market regulators, emphasizing the exchange of regulatory techniques and technology.

With the completion of this fall's program, a total of 60 interns from 16 countries will have fully completed the training. To date, 21 U.S. jurisdictions have hosted international regulators as part of the NAIC's intern program including: Alabama, Arkansas, California, Colorado, District of Columbia, Georgia, Hawaii, Illinois, Kentucky, Louisiana, Massachusetts, Montana, Nebraska, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Texas, and Washington.

The seven-week program - which is conducted twice a year - includes a week in Kansas City for orientation and five weeks in a host state for more specialized training. Host states for the fall 2008 program included California, New York, North Carolina, Louisiana, Kentucky and Alabama. Washington, Nebraska and Colorado are first time hosts. The program concludes with attendance at the NAIC Summer National Meeting in San Francisco, followed by an industry-regulator dialogue and a closing ceremony in Washington, D.C., December 10-11.

HUNGARY TO HOST IAIS ANNUAL CONFERENCE 2008

The 15th IAIS Annual Conference will be hosted by the Hungarian Financial Authority in Budapest, Hungary, October 14-17. The conference provides an excellent opportunity for representatives of the insurance profession to exchange views on new developments. The theme will be "Insurance and the Globalization of Financial Services: Challenges for Worldwide Regulation and Supervision" and will cover the following issues:

- Cooperation and transparency in crisis situations
- The impact of the future solvency standards
- Cross sectoral convergence
- Preconditions for standard implementation
- Reinsurance in modern finance
- Supervision of insurance groups
- Market conduct
- Application of insurance supervisory standards in specific circumstances

NY REGULATOR ASSISTS SAUDI ARABIA IN WORLD BANK MISSION

In a recent World Bank mission to Saudi Arabia, the NAIC participated in a project to help to develop regulation of the newly privatized health markets. From July 9-20, 2008 New York DOI Supervising Examiner John Chaskey accompanied the World Bank mission in its effort to assist the Counsel of Cooperative Health Insurance (CCHI).

The Cooperative Health Act created a privately regulated health market. The Kingdom of Saudi Arabia as a first step will require employers to provide for the healthcare of its workers by purchasing insurance. It began implementing the transition from government provided health services to a private insurance third party payor system in 2006 with application of the mandates incrementally to the foreign workers of private companies. Assistance asked and provided evaluated the condition of regulation for this market. The CCHI will jointly regulate the health insurance companies and other intermediaries with the Saudi Arabia Monetary Agency (SAMA). SAMA has participated in the recently concluded intern program and will send two more of its staff to this fall's program. The CCHI will look to benefit from our collective experience, as well.

Takaful insurance, the Islamic alternative to insurance, is based on the concept of social solidarity, cooperation and mutual indemnification

of losses of members. It is a pact among a group of persons who agree to jointly indemnify the loss or damage that may inflict upon any of them, out of the fund they donate collectively. The *Takaful* contract so agreed usually involves the concepts of *Mudarabah*, *Tabarru'* (to donate for benefit of others) and mutual sharing of losses with the overall objective of eliminating the element of uncertainty.

The premium or donation is for the benefit of all and avoids the gambling and usury prohibitions often associated with profit taking in a commercial insurance enterprise that benefits a third party such as the owner or stockholder who takes a share of the donations for their own mercantile interests.

Takeful has existed for centuries going back to inter-tribal protections of the Babylonians, and reminds us of our insurance roots here in the US going back to the cooperative fire companies and fraternal benefit societies that developed the concept of a mutual insurance risk bearer.

It is interesting that as regulators we stand to participate in the Islamic concept of takeful by sharing and cooperating in the exchange of our knowledge of regulation through our mutual association, the NAIC.

NAIC PARTICIPATES IN US-CHINA INSURANCE REGULATORY DIALOGUE

NAIC Continues Work with CIRC on Joint Insurance Working Group

NAIC President Sandy Praeger led a delegation including Commissioners Bell, Morrison and Cline to Shanghai and Beijing, China, the week of April 7th as part of the NAIC's on-going regulatory cooperative efforts with the China Insurance Regulatory Commission (CIRC).

While in Shanghai, the delegation met with the head of the CIRC Shanghai Bureau, Mr. Sun Guodong. He provided a presentation on the structure of the

Shanghai bureau; a briefing of the Shanghai insurance market, which includes 31 international insurance carriers and 44 international insurance representative offices; and its mission to become an international financial center. To encourage the development of a world class financial hub, political stability, rapid economic growth and an open door policy were noted as critical components for Shanghai's success.

CIRC Shanghai highlighted their work on consumer protection and their initiative to publicize consumer complaints as well as insurance contracts disputes on their website. In addition to bilateral discussions with CIRC Shanghai, the delegation visited a Chinese company called AllTrust Insurance to gain a greater understanding on their business strategy. The company provides a full spectrum of services focusing on energy insurance and large commercial risk sectors.

PICC, the largest non-life insurer in China, hosted a meeting with the NAIC delegation. Vice President, Mr. Ding, provided an overview of the company. PICC was quite interested in work with respect to the EU's Solvency II initiative. The NAIC asked PICC if they were interested in expanding into the US and they noted the high level of sophistication in the US market posed a great deal of challenges. Mr. Ding noted a Joint Venture PICC had with AIG years ago in the US and how it failed.

During a visit with the US Embassy in Beijing, the NAIC provided a brief overview of their activities with CIRC, and discussed the most recent Joint Insurance Working Group project, the role of commercial insurers in China's health insurance market. CIRC hosted a meeting with Chairman Wu Dingfu and Vice Chairman Li Kemu. The discussion encouraged the continuation of the relationship between NAIC-CIRC and its importance. Vice Chairman Li talked about China's rapid growth, but how the private insurance industry is not yet fully developed and as a result have not met the demands of the extreme growth. Vice Chairman Li highlighted the role of pensions development in insurance, natural catastrophes, as well as the role insurance can play with respect to social security and asset management. The NAIC shared their experiences on these issues and responded to questions concerning Treasury "Blueprint" and the subprime issue.

Following the discussion with Vice Chairman Li and Chairman Wu, NAIC met with CIRC's international staff to determine the next topic for the Joint Insurance Working Group. The items discussed included asset management and natural catastrophes and the possibility of developing an Executive Level

Leadership Seminar. We are still waiting for confirmation from CIRC as to which topic they have selected a proposal and to solidify the next steps for the Executive Leadership Seminar.

The delegation met with members of the insurance industry from the American Chamber of Commerce in Beijing. Companies included: Principal Life, Fairfax, ACE, Performance Institute, Wilmer Hale Law Firm and discussion focused on industry concerns in China's market.

US-China Insurance Regulatory Dialogue Brief

Chair of the International Committee, Commissioners Walter Bell (AL) and Vice Chair, Asia, for the International Committee, Commissioner John Morrison, traveled to Hangzhou, China to participate in the US-China Insurance Dialogue on May 16. The meeting was led by the US government and provided an opportunity for the US insurance industry, the NAIC and the US government to highlight and have pointed discussions on issues of common concern with the CIRC.

Commissioner Bell gave a presentation on highlights from the IAIS 2007 Annual Conference, which focused on the way to promote sound insurance markets and functional regulation. As a regulator from a gulf coast state, Commissioner Bell provided a detailed presentation on how to adequately respond to natural catastrophes. The devastating earthquake in Sichuan was a reminder of the importance of catastrophic risk insurance and of creating a successful structure to manage a crisis. During his participation, he also briefly highlighted NAIC's work on investment related insurance products and how insurance regulators focus on solvency and suitability. Commissioner Morrison, as co-author of the NAIC-CIRC Joint Seminar Summary Recommendations on health, discussed the findings from the paper. Commissioner Morrison also provided comments on the NAIC's interest in microinsurance and the importance of adequate regulation with respect to all microinsurance products, and the significance of proper oversight of internal company governance.

IN BRIEF

CHINA POST GROUP WINS APPROVAL TO SET UP LIFE INSURANCE UNIT

The China Insurance Regulatory Commission (CIRC) gave approval to China Post Group, a \$10 billion company formed out of the State Postal Bureau, to set up a life insurance unit in Beijing. China Post is expected to operate its insurance business through the postal network. China's movement to sell life insurance through the post office is in contrast to Japan's efforts to reform its postal system to promote a level playing field for all insurance companies.

NAIC JOINS US-INDIA FINANCIAL AND ECONOMIC FORUM

The NAIC will join U.S. financial regulators from the Federal Reserve, Treasury, OCC, OTS, SEC, CFTC and FDIC in the 2008 Financial and Economic Forum with India's financial regulatory counterparts in a meeting in Washington, DC on June 11. The forum is part of an on-going dialogue between financial policymakers in the two nations. Ray Spudeck (Florida Office of Insurance Regulation) participated in 2007's Forum in India, where the meeting was kicked off by Treasury Secretary Henry Paulson.

Several of the issues discussed last October will be carried over to the 2008 dialogue, including a focus on "financial inclusion" – the Indian government's efforts to extend the reach of financial services throughout the country. NAIC has provided input on the "InsureU" financial education initiative, and will comment in the June meeting on the recent adoption of a new charge under the NAIC's International Committee to join the global efforts to explore the development of risk spreading through microinsurance, especially in the rural areas. Regulators will also discuss India's regime for licensing foreign institutional investors, and the impact in India of the global financial market turmoil.

COMMISSIONERS JUARBE (PR) AND HOLLAND (OK) PRESENT AT ASSAL ANNUAL CONFERENCE

The NAIC participated in the Association of Latin American Annual Conference in Madrid, Spain, the week of May 19th. As both a member of ASSAL and the NAIC, Puerto Rico has been very active in the Latin American organization. Commissioner Juarbe participated on a panel on "Tools for anti money laundering in the insurance sector." Norma Rosas, CNSF, Mexico moderated the panel and other participants included: John Carlson, FATF Secretariat; and Yoshi Kawai, IAIS Secretary General.

The program sections highlighted how the insurance sector and other sectors of the financial services industry are at risk of being misused for money laundering and the financing of terrorism. The panel presented country experiences in designing and

implementing legal frameworks aimed to avoid ways of concealing illegitimate origin of funds. In addition to the panel on anti-money laundering, Commissioner Juarbe also provided insight on the renewal on a panel on supervisory techniques.

As a first-time participant, Commissioner Kim Holland (OK) led a discussion on how group supervision functions in the US. The focus of the discussion was on the practical implementation of insurance group and conglomerate supervision. Other panelists included Luis Armando Montenegro, SSF, El Salvador; François Tempé, ACAM, France; and Pedro French, SBS, Perú. The next ASSAL meeting will take place in San Salvador, El Salvador, November 11-14, 2008.

OECD INSURANCE COMMITTEE MET JUNE 26-27

Priorities Confirmed for 2009-2010

The Insurance and Private Pensions Committee of the Organization for Economic Cooperation and Development (OECD) convened on June 26-27 in Paris. Participants from the 30 Member countries and private sector representatives will engage in discussions on a number of issues, including effective monitoring of insurance markets and the role of insurance statistics. A special task force on insurance statistics will meet on June 25 to improve the current OECD framework for global statistics on insurance markets. NAIC President Sandy Praeger and NAIC CEO Cathy Weatherford will represent US regulators in the US delegation led by the US Department of Commerce.

The Committee will also discuss corporate governance issues, related to its update of a paper applying the OECD Principles on Corporate Governance to insurance. In a meeting the previous day, Members of a special task force will also review a draft survey of industry and regulators on governance issues as part of a joint project with the IAIS Governance & Compliance Subcommittee.

The Committee will next turn its attention to the revised version of a stocktaking paper on “regulatory effectiveness and efficiency” drafted in collaboration with the OECD Committee on Financial Markets. The U.S. delegation will also make a brief presentation on the U.S. Treasury’s “Blueprint for a Modernized Financial Regulatory Structure.”

Annuities and the pay-out phase for private pensions will be discussed in relation to a policy paper and two background papers, one on the major types of annuities, and the other on the regulation of the pay-out phase. The Committee will conclude with discussions of financial education, and a project to address the financial management of large-scale catastrophes.

U.S.-EU TRANSATLANTIC ECONOMIC COUNCIL URGES PROGRESS ON INSURANCE ISSUES

NAIC to Report at U.S.-EU Financial Markets Regulatory Dialogue on June 6

U.S. and European policymakers met for the second Transatlantic Economic Council (TEC) in May, and issued a declaration calling for improvements in financial market harmonization.

The TEC was initiated at the EU-U.S. Summit in Washington, DC in 2007 by President Bush and German Chancellor Angela Merkel. Permanent members on the Council include the U.S. Secretaries of the Treasury and Commerce and the U.S. Trade Representative. The Council also established a Group of Advisors, including representatives of transatlantic legislative, consumer and business dialogues, to consult on priorities to be pursued.

Consistent with the TEC Framework, which calls for “convergence in the area of reinsurance regulation,” the Council report urged financial markets regulators “to make significant strides by the end of 2008 to identify steps that need to be taken to create a true level playing field for EU and US insurance companies in each other’s jurisdiction.”

The Framework acknowledges that the issues involving financial market structure and regulation are being actively pursued in the U.S.-EU Financial Markets Regulatory Dialogue (FMRD). The NAIC will provide a

report on the status of the U.S.-EU Insurance Regulatory Dialogue at the FMRD which will be held on June 5. The Insurance Dialogue is the on-going discussion among U.S. and European regulators and supervisors on issues of common concern. In recent years, responding to political pressures from Europe, the Dialogue has focused on U.S. reinsurance requirements for unlicensed reinsurers to collateralize their U.S. liabilities under credit for reinsurance rules. The dialogue also provides US and EU regulators to discuss the EU's proposals under Solvency II including treatment of third countries.

[The International Insurance Relations (G) Committee is currently considering a proposed "Solvency Modernization Review" under which U.S. regulators would analyze significant solvency reforms in other jurisdictions. A key component of this effort would be to create a critical review of the EU's proposed "Solvency II" reforms as well as other financial regulatory reforms in other jurisdictions and in the banking sector.]

VIETNAM DELEGATION TO CREATE INSURANCE INSTITUTE VISITS NAIC's DC OFFICE

The NAIC welcomed for the second time this year a delegation from Vietnam's Ministry of Finance, Insurance Department. In May a delegation met with NAIC staff at its headquarters to discuss market conduct issues, mortality tables and financial solvency matters. A larger delegation, which included The delegation visited the DC office to discuss the NAIC's Education and Training Department and how it functions. Vietnam is aiming to establish a Vietnam Insurance Academy, which is under the auspices of the Vietnam Ministry of Finance. to Vietnam's Insurance Institute/Training Center Project and AIG and for a meeting at the NAIC's Washington, DC office.

IAIS Committees and Subcommittees: UPDATE

Established in 1994, the IAIS represents insurance regulators and supervisors of some 180 jurisdictions in more than 130 countries, constituting 97% of the world's insurance premiums. With the growth and importance of insurance and standard setting, the IAIS now has more than 100 observers from the private sector, academia, and international organizations.

The IAIS Committee meetings were held in Basel, Switzerland, March 3-7, 2008. NAIC participants included Commissioner Walter Bell (AL), Ray Spudeck (FL) and NAIC staff.
